

TESTIMONIALS

The services I received built a strong foundation for the beginning of my recovery. I learned the importance of having a stable and healthy environment for my family. All the services were very helpful.

*

I have had a great experience working with my EWS case manager. I get all the support I need and also a little extra help with day-to-day things, if needed. I am very pleased and would recommend this help to any woman out there. While working with my EWS case manager, I get my needs met to the fullest.

*

EWS has helped me in so many ways, getting me cabs when my car wasn't working, providing gas cards and showing me all the great programs there are. EWS has made a great impact on my life that will help me for years to come.
